Michigan Bulb Propagating Co.

"Oldest Growers of Dutch Bulbs in America"

Byron Center, Michigan, U. S. A.

Established 1914

FROM GROWER TO CONSUMER

All bulbs offered in this list are the products of our own Nurseries, located at Byron Center, Mich. All flower lovers should make it a point to visit us at any time during April or May, when our acres of tulips, Hyacinths, etc. are in full bloom. Exact location of our farm is seven miles south of the city of Grand Rapids. To reach farm by auto, take Division Avenue, Division Road, or M 13, and continue seven miles straight south.

"Carlisle Road" is a station on the Kalamazoo-Grand Rapids Division of the Michigan Electric Railway Company. All local trains stop at this station, which is a two minute walk from our farm. Busses operating between Grand Rapids and Kalamazoo, will discharge or take on passengers at the front gate of our nurseries. We will at all times be glad to show visitors about the place, whether they wish to purchase bulbs or cut flowers or merely wish to look around.

SELECTED, MICHIGAN GROWN HYACINTHS

Our hyacinths have been carefully selected both for their hardiness and for their color quality. We offer them in two sizes, medium and large size. The first we recommend for bedding purposes and the latter for indoor culture. NOTE: Planting instructions are sent with each shipment of bulbs, by carrying out the few simple rules our bulbs cannot fail.

		Doz.	100
No. 1.	GERTRUDE, deep rose, placing it amongst the finest of pink shaded hyacinths	FIRST SIZE \$2.00	\$15.00
		SECOND SIZE 1.50	10.00

No. 8.	MIXED in the above colors	FIRST SIZE 2.00	15.00
		SECOND SIZE 1.50	10.00

MICHIGAN GROWN TULIPS

Tulips are our specialty, we grow acres and acres of them. For best results they should be planted before the middle of November. The letters E M. and L., following each variety indicate their relative earliness of blooming. E indicates Early; M, Medium; L, Late, although, with few exceptions, most varieties bloom about the same time when planting outdoors, the late ones coming into bloom when the early ones are fully out. The figures indicate the height in inches. NOTE: Planting instructions are sent with each order. G. F. I. Means good for indoors.

SIX LEADING VARIETIES FOR INDOOR OR OUTDOOR CULTURE

		Doz.	100
No. 9	LA REINE, M 12. White shaded pink when in full bloom. One of the most popular for forcing of bedding	\$0.55	\$4.00

No. 144. MIXED. In the above and many other colors75	5.25
No. 145. BIZARRE TULIP, FANCY. This is a giant, golden brown	1.25	9.00

DOUBLE LATE TULIPS

	Doz.	100
No. 146. BLUE FLAG. Large flower on a long stem85	6.25
No. 147. BELLE ALLIANCE. Striped pink, very double85	6.25
No. 148. YELLOW ROSE. Pure yellow, very nice flower85	6.25
No. 149. ROSE BLANCHE. Pure white85	6.25

SINGLE NARCISSI OR DAFFODILS

Should be planted not later than October. They are quite hardy and will bloom just before the early tulips come out, or slightly later than the hyacinths. Narcissi should not be planted in regular beds or borders. A much better effect will be had by scattering them in the lawn or planting in clumps of irregular shape. Most varieties are good for forcing, though only the varieties marked G. F. I. should be chosen for this work. Only the leaders are offered here, all big plump mother bulbs.

	Doz.	100
No. 150. AJAX PRINCEPS. One of the earliest for forcing or outdoors, broad primrose perianth, with orange yellow trumpet G. F. I.	1.35	10.00

	Doz.	100
No. 171. ALBO PLENO ODORATO. Very late, large well filled flower, one of the best pure white Narcissi	1.35	10.00
No. 172. INCOMPARABLE. (Butter and Eggs). Large flower of a sulphur yellow color, fine for borders and cut flowers	1.35	10.00
No. 173. VON SION. Rich golden yellow, fine for border, G. F. I.	2.00	15.00
No. 174. MIXED of many shades, for outdoor work	1.35	10.00

CROCUS

These little fellows are the first to blossom in the spring; long before the daffodils or hyacinths are awake to the fact that Winter has gone and Spring is here these little flowers thrust their lovely heads through the snow and fairly shout at us that spring is once more in the land. They will grow anywhere, plant them anywhere you please but plant lots of them. Plant in October about 3 inches deep, and as close as you please.

	Doz.	100
No. 175. BARON VON BRUNOW. Purplish mauve45	2.50
No. 176. LOTHAIR. White with blue stripes45	2.50
No. 177. MAMMOTH YELLOW. One of the largest and finest yellow45	2.50
